Message from the Chair

The 2017 A&WMA Annual Conference and Exhibition (ACE) is less than a month away. This year, the conference will take place in Pittsburgh on Tuesday June 6 through Thursday June 9. Ten students from within the South Atlantic States Section (SASS) footprint will be presenting at this year’s ACE. In addition, a number of SASS members will be chairing platform and panel presentations on subjects including climate change, sustainability and human health risk assessment. If you are attending ACE, please join us at the SASS networking breakfast (see details below). For more information on the 2017 ACE visit the conference website at www.awma.org/ace2017.

Looking for something closer to home? Contact the Chair of your local chapter to get on the mailing list for your Chapter’s upcoming events.

If you have questions about upcoming events, have ideas for future events or are looking for a way to get involved, please contact your local Chapter Chair or send me an e-mail.
